| 10/05/05 | Installed new Instrument panel with instruments in standard position and avionics in center stack. Tach: 33.8, TT: 3614.8, SPOH: 17.6                                                                                                                                                                                                   | Airframe Log 3<br>Prop 1 |                         |
| 11/16/07 | Exterior Painted, Interior, upholstery, side panels and carpeting replaced, Tach: 66.8,                                                                                                                                                                                                                                                 | Airframe Log 3           |                         |
| 01/12/09 | While being flown by a ferry pilot from East Coast to new owner in Missouri, the fuel selector valve malfunctioned and engine quit. The Navion was landed, gear up in snow, near Latrobe, PA. Very little damage incurred. Plane was trucked to Rolla, MO where it was reassembled, new fuel selector installed, and next flew in 2013. | FAA Database             |                         |
| 01/26/11 | Propeller Overhauled,                                                                                                                                                                                                                                                                                                                   | Prop 1                   |                         |
| 04/02/13 | Cleaned and inspected both wing tanks, Installed Airwolf Oil/Air separator, replaced generator with alternator, Installed serviceable spinner, Tach: 86.7, TT: 3668.7                                                                                                                                                                   | Airframe Log 3           |                         |
| 04/02/13 | O'h'd Prop Installed, Tach 86.7, SPOH: 0.0                                                                                                                                                                                                                                                                                              | Prop 1                   |                         |
